## ON BINANCE SMART CHAIN

Binance Smart Chain (BSC) was created as a way to use solidity-based smart contracts at a significantly faster and more efficient rate than other competing chains. BSC has begun to become one of the most commonly utilized blockchains for Decentralized Finance, with decentralized exchanges enabling lightning-fast swaps and incredibly cheap fees (Defi). BEP-20, a token technology designed by the Binance Team, is used by BSC. Known for having 5 second block rates that are significantly faster than doge's 1 minute block speeds. These two articles contrast block speed.

PuppiesDoge is not responsible for the actions of the Binance smart chain network

# The following are some of the benefits of the Binance smart chain

It's a proprietary blockchain that will give all users and developers with security and safety.

Its inherent dual chain interoperability will enable cross-chain communication and scaling of high-performance Apps that need a quick and seamless user experience.

It's EVM-compatible and will support all of Ethereum's existing tooling's, as well as quicker and less expensive transactions.

Its on-going governance, based on Proof of Staked Authority consensus and 21 validators that validate transactions, will offer decentralisation and allow for considerable community participation.

# Puppies Doge Tokenomic

**6% REWARD FOR HOLDER**

**Simply by holding PPD token, 6% of each transaction on Buy and Sell will be redistributed to all holders.**

**4% ADDED LIQUIDITY POOL**

**Automatically , 4% of each transaction on Buy and Sell is added to the liquidity pool.**

**1% DONATION**

**The Community will select an Organization that is truly in need, and a monetary donation will be made to them.**

# ROAD MAP PUPPIES DOGE
